

Go to the PNAACL Oligo Web Ordering page (link above). Select Country "United States" to reach the PNAACL/OPERON Technologies custom website. The Register link under "New Customers" allows you to set up your account information. You must have your Department Name, Department Number, FIS Billing Department Number and Campus Box Number to complete your registration. These may be obtained from your department or division administrator. Once you have filled in all starred information, click Save to complete your registration. You are now ready to order online with OPERON Technologies.

To order, click on Begin Ordering. Under STEP 1, enter the total number of oligos you are ordering. Fill in the information for each oligo. NOTE: If you navigate away from this page without using the Add to cart button, you will lose any information entered on the form. When you have filled in the information for all the oligos you wish to order, click on Add to cart.

You may now change or add information if necessary prior to completing your order. Once you have finalized your synthesis information, click on Checkout.

On the Checkout page, you must complete the Pick-up Location and Fund Source to successfully submit your order. You also have the option to prevent sequence information from appearing in the confirmation e-mail. Once you have reviewed your order information, click on Submit Order to send the order to OPERON Technologies.
